Title: Green light - An artistic workshop.

Date: 2017.

Technique: Wood, partly polychromed, with connectors made from plastic and green light, electrified.

Measurement: 46 x 39 x 35cm.

Notation: Titled and inscribed.

Condition:

The work is in very good condition. The work is fully functional.

From an unknown edition size. The workshop took place in cooperation with Thyssen-Bornemisza Art Contemporary as part of the 57th International Art Exhibition of the Biennale in Venice VIVA ARTE VIVA in 2017.

The project originated as response to the current geopolitical situation, in which millions of people become refugees because of war and violence, and it generally refers to the migration issue. Refugees and asylum seekers metaphorically get 'green light' and were invited to participate in the project. Apart from building green lamps, language courses, seminars, and film screenings were part of the workshop.
